

## Samdisha Brand & Growth

Over the years, our stringent entry requirements have yielded an interesting byproduct: the creation of a strong brand image of the Samdisha employee. Every member of the Samdisha family is now perceived, without question - and not just in the career market but by our clients all over the world too - as a highly intelligent, competent, articulate individual, with a complete range of all the top-end skills required in his or her job. Growth with Samdisha Today, some of the leaders of our company have been with us since the start of their careers. Growth is encouraged from one level to the next, through pressure to perform and supplementary training is provided by the company. Å Å
